

Dear Sir/ Madam

eTeens
STI (Sexually Transmitted Infections) /
HIV (Human Immunodeficiency Virus)
Prevention Programme in Schools

1. In view of the increasing number of STIs reported among youth aged 10-19 years¹, HPB, in collaboration with the Ministry of Health (MOH) and the Ministry of Education (MOE), developed a STIs/HIV prevention programme titled *eTeens* for students in secondary schools and JC/CIs. The programme aims to raise awareness on STIs/HIV, inform students about ways to prevent infection and discourage risky sexual behaviours. Abstinence and upholding family values are the key messages in the programme.
2. *eTeens* for Secondary 3 students comprises an assembly talk and a classroom-based lesson. It covers information on the transmission modes of STIs, the signs, symptoms and consequences of contracting STIs/HIV, effective methods of preventing infection including abstinence from pre-marital sex, being faithful to one partner in the context of marriage as well as condom use. It also teaches life-skills such as decision-making, assertiveness and negotiation skills. *eTeens* is conducted in schools by trained personnel from HPB and teachers. A factsheet on the programme, which is available on the MOE website², is enclosed.
3. If you do not wish your child/ward to attend this programme, please complete the form on the next page and return it to the school. For any clarification regarding this programme, please email us at hpb_yhp@hpb.gov.sg.

Thank you.

Yours sincerely

Dr Chris Cheah
Deputy Director
Communicable Disease Education
Regional Health and Community Outreach Division
Health Promotion Board

¹ Reported cases of STIs among youth aged 10-19 years increased from 238 cases in 2002 to a peak of 820 cases in 2007.

Wise. Informed. Sensible. Empowered

AIMS OF *eTEENS*

1. The Empowered Teens (*eTeens*) programme aims to provide students with accurate information to help them make good decisions in their life choices. It raises awareness and knowledge about the following:
 - a) awareness of the different sexually transmitted infections (STIs) and HIV/AIDS;
 - b) modes of transmission for STIs and HIV/AIDS;
 - c) modes of protection against infection, specifically abstinence and the correct use of condoms;
 - d) skills for decision-making, assertiveness, negotiation to say “no” to peer pressure to have pre-marital sex; and
 - e) consequences and impact of STIs/HIV.

FORMAT OF PROGRAMME

2. The *eTeens* programme comprises an assembly talk and a classroom-based lesson:
 - a) The mass talk is conducted by a speaker engaged by the Health Promotion Board (HPB) from an approved panel. The presentation follows an approved guide.
 - b) The duration of the assembly talk is about 1 hour. It includes a multi-media presentation, video screening as well as presentation of key learning points.
 - c) The classroom-based lesson reinforces skills of responsible decision-making, negotiation and assertiveness. The suggested time for the lesson is about one hour.
 - d) Training for teachers to conduct the classroom-based programme is provided for by MOE and HPB.
